How to Apply the Bagua Map

You can overlay the bagua map on your home, a specific room, or even your desk to identify which areas correspond to different life aspects. In feng shui, there are two common ways to apply the bagua map:

1. **Traditional (Compass) Method:** Uses compass directions to align the map with your space.
2. **Western (BTB) Method:** Aligns the bottom of the bagua map (career area) with your front entrance.

For beginners, the **BTB method** is often easier to use. Simply stand at your front door and visualize the map over your floor plan.
